■ Diver Platform[®] Revenue Cycle Advisor[™]

More than 275 industry standard off-the-shelf KPIs

Revenue Cycle Advisor enables you to quickly monitor and manage your billing, submission, and collection processes. It provides consolidated views of key revenue cycle data sources and metrics that summarize and provide details on efficiency and procedures. Revenue Cycle Advisor will help you identify areas for improvement and discover insufficient processes, resulting in the ability to gain lost revenue.

Information is quickly available for users through dashboards, reports, and ad hoc analytics. Revenue Cycle Advisor provides users access to Claims Management, Charges Capture, Reimbursement, Revenue Integrity, and other measures through Diver's analytical dashboards.

Users can view key metrics and then click on any number or graphical view to answer questions about the underlying detail. Users instantly answer questions and gain insight on opportunities for improvement.

Dimensional Insight's Revenue Cycle Advisor helps you make sense of your wealth of data and allows you to focus on relevant data so you can make timely and more informed decisions. This leads to increased collections, reduced denials and write-offs, and overall improvement in revenue cycle performance.

Benefits of Revenue Cycle Advisor

- Increase collections and reduce underpayments. One customer identified \$2,000,000 in underpayments.
- Reduce write-offs. A customer recovered \$750,000 in first 4 months of deployment.
- Improve productivity. A customer reduced administrative work by 20%.
- **Reduce overtime.** One hospital saved more than \$250,000.
- Make data more available and empower users. Self-service dashboards enable up to 90% reduction in the time spent collecting, analyzing, and visualizing data.

Access to Industry Standard Out-of-the-Box Measures

Revenue Cycle Advisor comes with 275+ out-of-the-box measures that can be quickly implemented in your hospital. These measures include:

- Revenue
- Revenue Integrity
- Unbilled Balances
- Financial Management
- Aging Balances

- Credit Balances
- Aging Ratios
- AR Balances
- AR Aging Balances
- AR Bad Debt

More measures and measure definitions can be accessed on our website at https://www.healthcare.dimins.com/applications/revenue-cycle-management/

Part of Dimensional Insight's Library of Applications

Revenue Cycle Advisor is built on Dimensional Insight's award-winning enterprise analytics platform and is part of the company's library of off-the-shelf applications. Deploying these applications results in deep and sustained clinical, financial, and operational improvements that impact patient care and your organization's bottom line. Diver Platform and Dimensional Insight's Library of Applications satisfy your health system's enterprise reporting needs.

Benefits to the Library of Applications approach

- **Data trust across departments.** Data governance ensures the use of consistent, standardized, validated, and documented business rules and measures across applications. This means all departments are using the same definitions for decision-making.
- **Quick to implement.** Dimensional Insight uses a proven process that leads to short implementation times and quick time to value. Applications build on previously implemented Dimensional Insight apps, leading to even shorter deployment times, especially when compared to department-specific apps from multiple vendors.
- Lower overall costs. Because Dimensional Insight apps are all built upon Diver Platform, hospitals do not incur the high costs associated with licensing and supporting solutions from multiple vendors.
- Designed to be customizable. Users access 1,000s of off-the-shelf industry-standard business rules that can be deployed "as is" or adjusted to your unique requirements.
- Consistent look and feel across application areas.
 Applications all have a consistent, intuitive look and feel.
 Moving from one application to another is seamless.
 Executives and other users do not have to learn several applications.

Built on the award-winning, healthcare enterprise analytics platform: Diver Platform®

- **Best in KLAS Healthcare Business Intelligence & Analytics platform.** Our customers have perennially rated Diver Platform #1.
- **Leading edge technology.** Enterprise analytics platform combines ETL, data management, and self-service analytics to provide a powerful engine that generates results for all types of users.
- **Data Governance.** Rigorous processes that manage and protect data ensure data trust and consistency across the organization.
- **Custom development.** Since Diver is a development platform, customers can modify existing Dimensional Insight applications or build new ones on their own, giving them the best of both worlds.
- Data when and where you want it. Users can easily access data from their desktop, laptop, tablet, or phone.
- **Multiple deployment options.** Organizations can host deployment on site, in the cloud, or via SaaS.

Other Dimensional Insight applications:

- Hospital Operations
- Ambulatory Operations
- Surgery Advisor
- Enterprise Hospital Productivity Advisor
- Outcomes Advisor
- General Ledger Advisor

- Physician Performance Advisor
- Emergency Department Advisor
- ICU Advisor
- Inventory Advisor
- Revenue Cycle Advisor
