

Provider Compensation Advisor™

Take the complexity out of computing and managing incentive compensation for your providers. By automating and simplifying this critical process, you can improve efficiency, transparency, and bottom-line performance.

As healthcare organizations grow, calculating incentive pay across diverse provider contracts becomes exponentially more complicated and time-consuming. Manual spreadsheet processes are error-prone, lack audit trails and institutionalized knowledge, and require significant manual effort. Failure to get it right leads to unhappy providers and potential compliance risk.

The Provider Compensation Advisor application leverages Dimensional Insight's powerful Measure Factory® to automate even the most intricate compensation models. Seamlessly integrate data from disparate systems to calculate personalized compensation statements tailored to each provider's individual contract terms.

Benefits

- Time Savings:** Reduce the time needed to compute provider incentives in each payment cycle.
- Reduced Manual Processing:** Minimize manual processing, reducing errors and improving efficiency.
- Increased Confidence:** Enhance confidence in accurate compensation calculations through automation.
- Auditability:** Confirm compensation validity through auditing checks and reports.
- Standardized Contracts:** Standardize contract structures for consistency.
- Improved Transparency:** Enhance transparency for both administrators and providers.

Product Capabilities

- ❑ **Detailed Compensation Statements:** Generate comprehensive compensation statements for providers.
- ❑ **Contract and Bonus Structure Management:** Easily manage and customize contracts and bonus structures.
- ❑ **Customizable Templates:** Create templates tailored to specific requirements.
- ❑ **Provider Performance Review:** Evaluate provider performance effectively.
- ❑ **Salary Management Assistance:** Assist in managing provider salaries efficiently.
- ❑ **Custom Reports Definition:** Define and generate custom reports as needed.
- ❑ **Powerful Ad Hoc Analysis:** Gain deeper insights by exploring the data how you want to.

Example Contract Terms

- ❑ Net Collections
- ❑ RVU's
- ❑ Advanced Practice Provider Profit Share
- ❑ Supervisory Stipends
- ❑ Medical Directorship Stipends
- ❑ Expense Offsets
- ❑ Advance Payment Recoupments
- ❑ Support for Multi-tiered Contract Structures

Integration

Provider Compensation Advisor seamlessly integrates with Dimensional Insight's family of healthcare analytics applications, ensuring reliability and providing an up-to-date single version of the truth.
